

## Course description - AutoCAD Preparation course

---

*Draw with cadett ELSA*

Duration: **1 day**

The drawing environment in cadett ELSA is based on AutoCAD, which is the most sold professional CAD software in the world.

AutoCAD Preparation course describes 2-dimensional drawing work especially for schematics.

The participants will learn how to use AutoCAD as a "drawing-table". Sufficient knowledge to directly continue with cadett ELSA part 1 - Basic course, is supplied.

### Content:

---

- The menus in AutoCAD when using cadett ELSA
- Basic drawing and editing commands
- Drawing aids
- Viewing commands
- Layer management
- Symbol handling including attributes
- Object selection methods and object snaps
- Advanced editing commands
- Text
- Plotting

### Who should participate?

---

Everybody who are going to work with cadett ELSA and who lack previous experience with AutoCAD.

### Qualifications

---

Some experience with personal computers and the Windows operating system is an advantage.
